As a consumer I wish to take this opportunity to formally
comment on the interim final rule regarding health plans and "grandfather" status
(Document ID IRS-2010-0010-0001).

I believe the consumer protections included as part of the new health care law are
vitaly important and should be extended to as many people as possible.
Accordingly, every effort should be made to increase the number of individuals
covered by the Patient Protection and Affordable Care Act (PPACA) via the
above regulations. The triggers or conditions that would extend these protections
to consumers under currently existing "grandfathered" plans should not be
weakened or reduced in any way. I specifically support the position and detailed
comments offered by the American Chiropractic Association with respect to the
implementation of these regulations.
